2017 is the 130th anniversary of the publication of *A Study in Scarlet*, the first recorded adventure of Sherlock Holmes and Dr John H Watson. What an amazing journey it's been in addition to the pitifully few sixty tales originally presented in the canon published between 1887 and 1927, there have been literally thousands of additional Holmes adventures in the form of books, short stories, radio and television episodes, movies, manuscripts, comics, and fan fiction. And yet for those who are true friends and admirers of the master detective of Baker Street, where it is always 1895 or a few decades on either side of that, these stories are not enough. Give us more! In 2015, the *MX* book of new Sherlock Holmes stories burst upon the scene, featuring stories set within the correct time period and written by many of today's leading Sherlockian authors from around the world. Those first three volumes were overwhelmingly received, and there were soon calls for additional collections. Since then, the popularity has only continued to grow. Two more volumes were released in 2016, and this is the first of two planned for 2017, with no end in sight. The thirty-five stories in this volume now bring the total number of narratives and participating authors in this series to well over one hundred, representing some of the finest new Holmesian storytelling to be found and honoring the man described by Watson as the best and wisest whom I have ever known. All royalties from this collection are being donated by the writers for the benefit of the preservation of Undershaw, one of the former homes of Sir Arthur Conan Doyle. Part VI, 2017 Annual, features contributions by Bob Byrne, Julie McKuras, Derrick Belanger, Robert Perret, Deanna Baran, G.C. Rosenquist, Hugh Ashton, David Timson, Shane Simmons, Stephen Wade, Mark Mower, David Friend, Nick Cardillo, Roger Riccardi, Subramanian Carl, I. Heifetz, Geri Schear, S.F. Bennett, Jennifer Copping, Jim French, Carla Coupe, Narrelle Harris, Arthur Hall, Craig Janacek, Marcia Wilson, Tracy Revels, Molly Carr, Keith Hann, David Ruffle, David Marcum, Thomas A. Turley, Jan Edwards, C. Edward Davis, Tim Symonds, and Daniel D. Victor, with a poem by Bonnie MacBird and forewords by David Marcum, Nicholas Utechin, Roger Johnson, Steve Emecz, and Melissa Farnham.

This edited collection brings together a wide range of topics that shed light on the social, cultural, economic, political, and spatio-temporal changes influencing post-socialist cities of Eastern Europe. Different case studies are presented through papers that were presented at the EuroAcademia International Conference Series, *Imagined Identities and Transformations*, which represent three blocks for understanding the ways in which visual narratives, memory, and identity and processes of alterity shape the symbolic meanings articulated and inscribed upon post-socialist cities. As such, this book stimulates a debate in order to provide alternative views on the dynamics, persistence, and change, broadly shaping mental mappings of Eastern Europe. The volume offers an opportunity for scholars, activists, and practitioners to identify, discuss, and debate the multiple dimensions in which specific narratives of alterity, making towards Eastern Europe, preserve their salience today in refurbished and refashioned manners.

Immunophenotyping is the most powerful tool in the routine diagnosis of hematologic neoplasms. Immunohistochemical technique is used in histology labs for this purpose, while flow cytometry is used in clinical labs. Although separately these 2 techniques are very useful in detecting lymphomas and leukemias, the combination of both creates a very powerful and definitive diagnostic tool. The addition of molecular genetics to the book makes it an all-encompassing reference text.
